

Ole Lajord Munk: CV
Medical physicist, PhD

September 2010

Education

May 1998: MSc. in Physics and Computer Science, Aarhus University. Master Thesis: "Automated registration of PET brain scans using neural networks."

September 2004: PhD. in Medicine, Aarhus University. PhD Thesis: "Hepatic metabolism of glucose analogues measured by dynamic positron emission tomography and interpreted by compartment models - with special reference to the hepatic dual-input function." *Dan Med Bull* 2004; 51: 446.

2004-2007: 3-yr post-graduate coursework/training program in medical physics: January 2007: Specialist in physics in nuclear medicine (PET).

Employment

Since 2004: Medical Physicist at the PET Centre, Aarhus University Hospital, Denmark.

Research studies abroad

1999-2003: Dept. of Mathematics, University of Queensland, Brisbane, Australia (3 visits of each 1 month).

1997: Université Joseph Fourier, Grenoble, France (5 months).
